220 ENTRIES AT THE RMCET SEASON OPENER IN CREMONA

Cremona, Italy
Monday February 23, 2026

With 20 days to go until the opening round of the 2026 Rotax MAX Challenge Euro Trophy, the event continues to gather momentum, with the number of registered drivers now reaching 220 entries ahead of the Italian round at the Cremona Circuit.

A particularly strong response has been recorded in Senior MAX, which alone counts over 100 drivers on the entry list - a figure that ranks among the highest ever seen in the history of the RMC Euro Trophy and underlines the competitiveness and appeal of the category.

The Italian round of the Rotax MAX Challenge Euro Trophy therefore confirms the positive trend in participation already established during the 2025 season, reinforcing the championship's position as one of the most attractive and competitive platforms in international karting.

With the event scheduled from March 11 to March 15, 2026, teams and drivers are now finalising preparations as anticipation continues to build toward the first green flag of the new RMCET season.
