Sarno, Italy, October 20, 2024 – The Rotax MAX Challenge (RMC) Grand Finals 2024 are now underway in Sarno, Italy, bringing together the world's best karting talents from October 19-26. With competitors from 58 nations, this week promises a thrilling showcase of skill, determination, and the spirit of motorsport. The last few days were dedicated to the mandatory Sporting Checks, followed by the scrutineering of the racing gear ensuring that all drivers are ready to compete at their best.

Yesterday's official Sporting Check-in faced quite the downpour, with rain pouring down relentlessly. But today, the weather took a turn for the better. Although the morning began with light showers, the clouds soon gave way to sunshine just in time for the photo session with the stunning Kart Line-up—featuring 392 brand-new karts provided by our trusted chassis partners. Each of the 58 participating nations had the chance to take a team photo in front of this impressive display, showcasing the global reach and unity of this prestigious event.

The excitement continued as the Kart Raffle concluded, and drivers received their toolboxes, tires, and other essential equipment, setting up their karts for the first Non-Qualifying Practice session which starts tomorrow. Official Briefings were completed, preparing the competitors for the fierce battles ahead.

Tomorrow, the first race action officially begins, igniting the track with the competitive spirit of the RMC Grand Finals. From Tuesday afternoon, fans around the world can join in on the excitement as we kick off live broadcasting on our YouTube channel, bringing the thrills of Sarno to a global audience.

At the moment we are celebrating at the Welcome Party in the Pool Area of Hotel Saturday. Stay tuned, we had some amazing specials for the celebration. More to come tomorrow.

About BRP-Rotax:

BRP-Rotax GmbH & Co KG, the Austrian subsidiary of BRP Inc, is a leader in the development and production of propulsion systems for the recreational and powersports markets. Founded back in 1920, BRP-Rotax has been committed to sustainable mobility and technological progress for more than 100 years. The innovative Rotax four-stroke and two-stroke high-performance engines are used for BRP products such as Ski-Doo and Lynx snowmobiles, Sea-Doo personal watercraft, Can-Am onroad and offroad vehicles, as well as for karts and sport planes. With sustainable products such as the first emission-free Lynx HySnow snowmobile or the high-performance E20 e-kart series, BRP-Rotax is also a pioneer in the field of alternative drive models. More than 1,500 employees work in Gunskirchen, Upper Austria, on innovative propulsion systems for the global market.
